

# Crescent City Cyclists

## Crescent City Century September 30, 2018

★ **Hell's Gate** - This is the start/end of the loop for full century riders only. A rider averaging 12 mph should reach this point for first time around 11:00 AM.

If you reach this point at later times your average speed is too slow to finish the full century with support. The remaining rest stops will be closed by the time you reach them, so please choose a shorter route.
